### Fund objective

The Solidum ELS Fund is an open-end fund registered in Bermuda. The Fund's objective is to achieve long term capital appreciation and low correlation to fixed income, equity and non-traditional investments. The Fund holds a diversified portfolio of insurance linked securities which can have the structural format of catastrophe bonds, notes and derivatives, industry loss warranties, sidecars, reinsurance contracts or other instruments transferring insurance event risk or genuine insurance underwriting risk. As the insurance event linked securities market evolves, new products may become available and the Fund may also invest in such products. The portfolio is actively managed in an attempt to achieve optimal returns in the context of the prevailing market environment. Leverage can be used in order to enhance investment returns, and active hedging may be employed to minimize downside risk.

In addition to its functional currency USD, the Fund offers CHF, EUR and GBP share classes. The equity capital of the non-USD share classes is hedged to reduce FX effects.
